Danube Water Balance

TRAINING ON TRANSBOUNDARY WATER BALANCE MODELLING

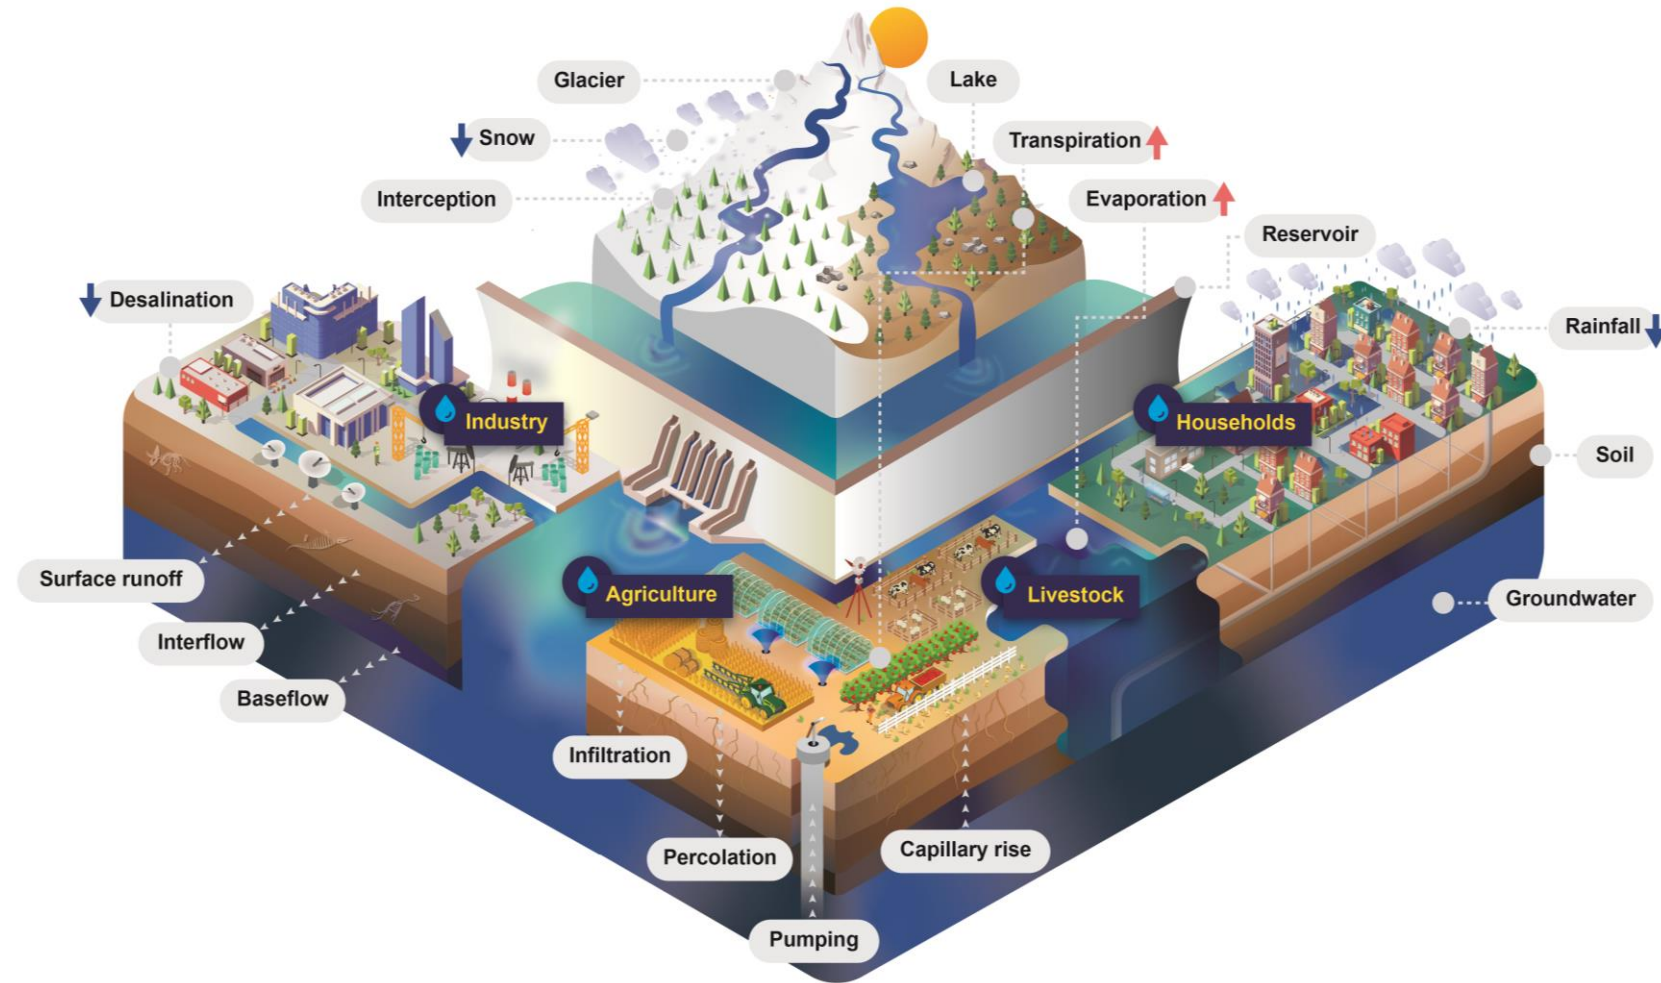

Date: 11th – 13th December 2024

Venue: Park Hotel Vitosha (Sofia, Bulgaria)

Topic is...

And ...

<http://www.iiasa.ac.at/cwatm>
<https://cwatm.iiasa.ac.at/>

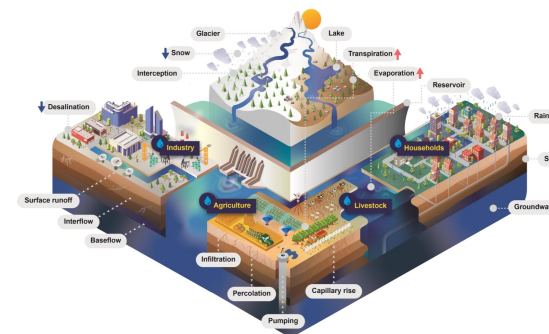

Trainers are ...

Carla Catania joined IIASA as a researcher in March 2024. She works on modeling the effects of climate change on water resources in the Danube basin as part of the Danube Water Balance project. She also contributes to the development of the Community Water Model (CWatM).

Silvia Artuso joined IIASA in April 2022. She is currently working on stakeholder engagement and hydrological-biodiversity models coupling for the SOS-Water project, which aims to create a Safe Operating Space (SOS) for water. She is also collaborating on Community Water Model (CWatM)

Peter Burek joined IIASA in 2015. His main field of interest is hydrological modelling but with a strong focus on integrated modeling to fit into IIASA's integrated assessments. Impact assessment for policy support on regional but also on a global scale.

Agenda of 11th Dec. – Sofia. 9 am – 17 pm

DAY 1, 11 th of December 2024			
START	SUBJECT	LEADING	DURATION
09:00	1. Welcoming and introduction	Peter Burek	00:15
09:15	2. Introduction to CWatM. Configuration of the setting file and CWatM modules (refresher)	Peter Burek, Carla Catania, Silvia Artuso	00:45
10:00	3. Run of CWatM	Peter Burek, Carla Catania, Silvia Artuso	00:30
10:30	4. Introduction to calibration methodology	Peter Burek, Carla Catania, Silvia Artuso	00:30
11:00	Coffee break		0:30
11:30	5. Calibration settings and Calibration run	Peter Burek, Carla Catania, Silvia Artuso	00:45
12:15	Lunch break		1:00
13:15	6. Pre-processing: River network corrections: tool explanation	Peter Burek	00:15
13:30	7. Pre-processing: River network correction tutorial	Peter Burek, Carla Catania	00:45
14:15	• <i>Pre-processing: River network feedback</i>	<i>Each case study leader</i>	00:30
14:45	Coffee break		0:15
15:00	8. <i>Homework presentation (tbd)</i>	<i>Each case study leader</i>	1:30/2:00
16:45	9. Wrap-up	Peter Burek / Agnes Tahy	00:15

Phase 0 - Preparation

IIASA

- Documentation and weblinks: <https://cwatm.iiasa.ac.at/>
- CWatM manual on: [http://pure.iiasa.ac.at/id/eprint/16802/](http://pure.iiasa.ac.at/id/eprint/16802/SO2/working/CWatM_model_developversion)
- Main literature on SharePoint: [SO2/working/CWatM_model_developversion](http://pure.iiasa.ac.at/id/eprint/16802/SO2/working/CWatM_model_developversion)
- You Tube videos: <https://t.ly/TvDny>
- SharePoint server:

<https://iiasahub.sharepoint.com/:f:/r/teams/DanubeWaterBalance>

Specific the SO2/working folder

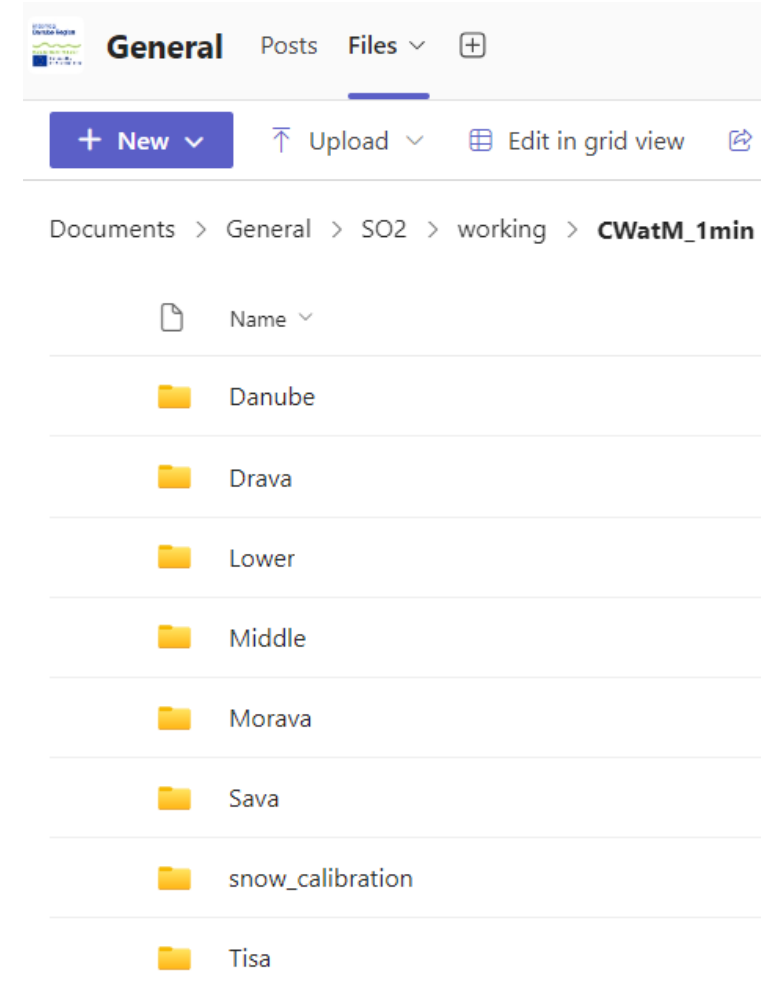

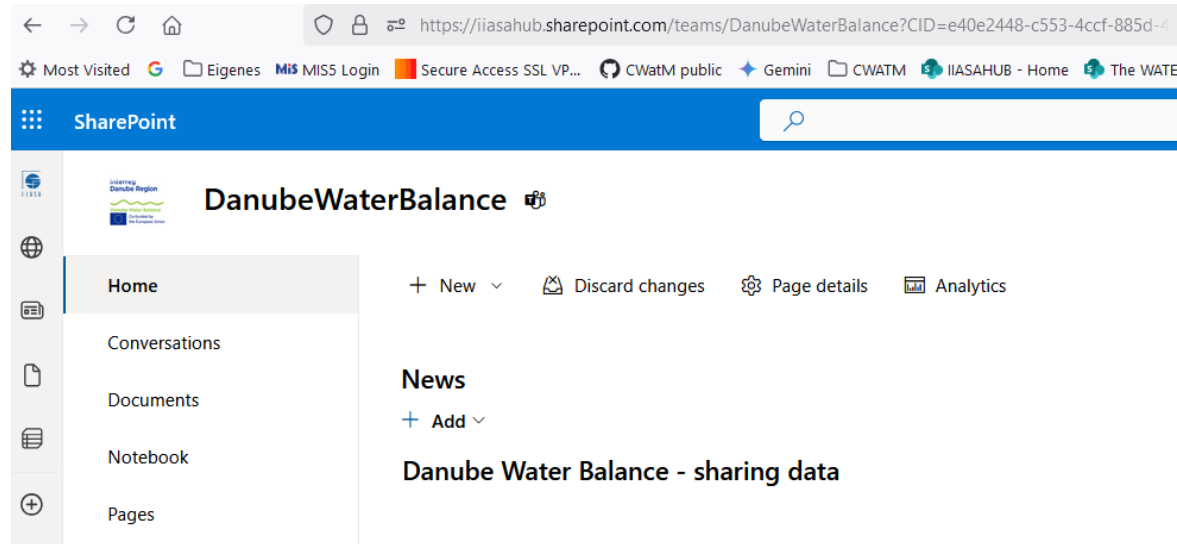

<https://iiasahub.sharepoint.com/:f:/r/teams/DanubeWaterBalance/Shared%20Documents/General/SO2/working?csf=1&web=1&e=zXpfie>

Participants (till 10th December):

- Installation of a texteditor and netCDF viewer, Python 3.x and libraries if you did not do it yet
- Installation of Python and CWatM
- Download of data and model from SharePoint

Phase 0 - Preparation

Most important: Access to SharePoint

Thank you – and now – hands on the model
